# What is the Home Energy Saving Scheme?

- The Home Energy Saving Scheme provides assistance to homeowners who are interested in improving the energy efficiency of their home in order to reduce energy use and costs.
- It is a national scheme and thus open to all owners of existing houses.
- The scheme is administered by Sustainable Energy Ireland and its agents.
- Assistance will be provided by the payment of fixed grants towards the costs of implementing remedial measures. The types of measures eligible under this scheme are roof insulation, wall insulation and heating controls.

Measure	Category	Grant
Roof	Roof Insulation	€250
Wall	Cavity wall insulation	€400
	Internal wall dry-lining	€2500
	External wall insulation	€4000
Heating Controls	High efficiency gas or oil fired boiler with heating controls upgrade	€700
	Heating Controls Upgrade	€500
BER Assessment	A <i>Before</i> works and <i>After</i> works assessment	€200

You may also like to **engage a Building Energy Rating (BER) assessor** to perform an energy rating of your home with an accompanying Advisory Report, which will help identify areas that could improve your level of comfort along with reducing future heating bills.
